

Protecting your IT investment

As well as delivering IT infrastructure we also have the resource to maintain it. Our IT support is available in a contractual basis or 'pay as you go'. For a quote tailored to your organisation please contact us on 01858 438 500.

Token Based Support

We can support your own IT team with telephone advice, remote diagnostics and configuration across the following platforms*:

- LAN Switches (HP, Cisco, 3Com)
- Desktop devices (Windows 2000 and above, Office 2000 and above)
- Servers (Microsoft 2000 and above including Small Business Server & Exchange)
- Routers (Cisco)
- Telephony (Siemens, Samsung, Mitel)

Support may be available on other products subject to engineer availability.

Why choose Abtec?

Organisations throughout the UK trust us to support their IT. Our engineers have the accreditation and experience to support your investment. We're flexible and can support just one element of your infrastructure or the whole thing.

Our supported clients include:

nationalgrid

**Support does not include hardware replacement or supply of software upgrades*

For more information about how our professional services could help your organisation please contact Abtec on 01858 438 500.
