

# IT Infrastructure Engineer

<b>Job Title:</b>	<b>IT Infrastructure Engineer</b>
<b>Company:</b>	<b>Abtec Network Systems Ltd</b>
<b>Department:</b>	<b>Engineering</b>
<b>Location:</b>	<b>Market Harborough, Leicestershire</b>
<b>Salary:</b>	<b>£32K – £37K depending on experience, on call bonus and company profit share</b>
<b>Website:</b>	<b><a href="http://www.abtecnet.com">www.abtecnet.com</a></b>

## Company Background:

Abtec Network Systems is a leading managed service provider, supplying businesses across the UK with cloud services, networks and IT infrastructure.

## Job Summary:

We are looking for talented, proactive infrastructure engineers who are keen to learn about and deliver new technologies. This is a varied role, in addition to providing our clients with second line IT support, you'll be fundamental in the delivery of some amazing projects. It's a fantastic opportunity to acquire new skills and develop your engineering career.

Our team delivers huge projects, for example:

- We designed, deployed and managed the IT on a crucial element of Europe's biggest construction project
- Designed, implemented and manage the IT infrastructure for a £1 billion Scottish shopping centre
- We'll be designing and deploying the onsite IT infrastructure for a Premiership football club's new stadium.

## Key Responsibilities

- Providing clients with second line support
- Monitoring, managing, and maintaining our data centres
  - Including our IaaS and secure backup platforms
- Performing IT audits and implementing recommendations
- Managing Microsoft Azure and Office 365 tenants
- Supporting the design, build and delivery of IT infrastructure projects

## Abtec Network Systems Ltd

Barents House, Compass Point, Market Harborough, Leicestershire LE16 9HW

- Experience in virtualisation – Hyper-V, VMware, Storage, SAN, NAS, Veeam Backup and Replication
- Windows Server 2012 onwards
- Experience of Active Directory, Group Policy Objects, DNS, DHCP
- Administration and configuration of M365 and Azure AD, SSO, Exchange Online, SharePoint, Teams
- Remote Desktop Services
- SSL certificates
- Networking protocols
- Hold a full, clean UK driving licence
- Be eligible to work in the UK

## Desirable knowledge

- Knowledge of public cloud infrastructure services in Azure (IaaS, storage, networking etc.)
- LAN, WAN, wireless
- Firewalls – Ability to configure and manage WatchGuard /FortiGate /Sophos XG or similar
- Switches – Knowledge to set up and configure (Cisco or any other similar products)
- Project management skills

## Why work at Abtec?

- Tailored personal development plan
- Attractive salary
- Company profit share
- On call bonus
- Pension
- Free on site parking

## To Apply

Please send your CV and cover letter to [ct@abtecnet.com](mailto:ct@abtecnet.com).
