

Network Engineer

Job Title:	Network Engineer
Company:	Abtec Network Systems Ltd
Department:	Engineering
Location:	Market Harborough, Leicestershire
Salary:	£32K – £37K depending on experience, on call bonus and company profit share
Website:	www.abtecnet.com

Company Background:

Abtec Network Systems is a leading managed service provider, supplying businesses across the UK with cloud services, networks and IT infrastructure.

Job Summary:

We are looking for talented network engineers who are keen to further their careers. This is a varied role, in addition to providing our clients with second line network support, you'll be fundamental in the delivery of some amazing projects. It's a fantastic opportunity to acquire new skills and develop your engineering career.

Our team delivers huge projects, for example:

- We designed, deployed and managed the IT on a crucial element of Europe's biggest construction project
- Designed, implemented and manage the IT infrastructure for a £1 billion Scottish shopping centre
- We'll be designing and deploying the onsite IT infrastructure for a Premiership football club's new stadium.

Key Responsibilities:

- Configure and deploy enterprise network infrastructure hardware
- Pre-sales technical support
- Supporting networking projects
- Providing high level and detailed network diagrams
- Managing and maintaining our core network and data centres

Experience requirements:

- Administration and configuration of Cisco or Juniper routers
- Configuring VPNs: IPSEC, Open VPN, DMVPN
- Understanding WAN circuits: DSL/FTTC, Ethernet, Cellular
- Excellent network troubleshooting knowledge

Abtec Network Systems Ltd

Barents House, Compass Point, Market Harborough, Leicestershire LE16 9HW

Network Engineer

- On-site hardware deployment

Desirable knowledge

- CCNA/CCNP in enterprise infrastructure or service provider
- Network protocols: OSPF, BGP, MPLS, L3VPN
- Firewalls: Cisco ASA, Firepower, Watchguard, OPNsense
- Wireless networking: Cisco WLC, Meraki
- VMware NSX-T Datacentre
- Basic VMware knowledge
- Any scripting skills: PowerShell, Python, RestAPIs

The candidates should have excellent interpersonal, communication and organisational skills, as well as commitment to deliver a first class customer service.

An ideal candidate must also have the following:

- Full UK driving license
- Eligible to work in the UK

Why work at Abtec?

- Tailored personal development plan
- Attractive salary
- Company profit share
- On call bonus
- Pension
- Free on site parking

If you want to develop your IT career and be supported in taking it to the next level, this could be the role for you.
